

## **Front Load & Rear Load Bin Regulations**

To our valued customers, please review this form for rules and regulations concerning your bin:

**Placement** – ensure the bin stays in the same location as when it is delivered to you. If the bin is moved and our operator cannot pick it up – extra charges will apply if we have to return for pickup at a later date.

**Access** – ensure that no vehicles/ farm equipment/ holiday trailers, etc. are not blocking the bin on your assigned pickup day. Make certain that gates are open on your scheduled pickup day. All bins require a minimum 6ft clearance around the bin. Pickups times vary – from 7:00 am to 7:00 pm

**Care & maintenance of bin** – no burn barrel ashes allowed, no clay or dirt. We recommend that all grass clippings be bagged. No concrete, shingles, paint, hazardous waste, metals or tires.

Do not place items on top of the lids. Do not place extra garbage in front of the bin – it will not be picked up nor will your bin be dumped. Do not place wood into the bin if it is longer than the dimensions of the bin. Do not overfill the bin as all garbage needs to be in the bin with lids closed.

**Yard conditions** – ensure that your driveway is passable and your bin accessible year round, as extra charges will apply if we have to come back due to inaccessible bins.

**Damages** – you are responsible for the overall condition of the bin. You will be charged full price for bins that have to be replaced due to negligence (fire, crushed, dented, or graffiti)

Regards,  
Management
